

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

THE DIRECTOR

June 7, 2010

The Honorable Nancy Pelosi
Speaker of the House of Representatives
Washington, D.C. 20515

Dear Madam Speaker:

We are transmitting herewith the Annual Report on United States Contributions to the United Nations in accordance with Section 1225 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (P.L. 109-364), as amended by Section 1243 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84). This report sets forth United States contributions to the United Nations and United Nations affiliated agencies and related bodies for fiscal year 2009 as provided to the Office of Management and Budget (OMB) by the relevant Executive Branch agencies.

The Administration is committed to disclosing information rapidly in forms that the Congress and public can readily find and use. This report is being made available to the public on the OMB website together with other legislative information and reports to Congress.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter R. Orszag". The signature is stylized and cursive.

Peter R. Orszag
Director

Enclosure

Identical Letter Sent to the President of the Senate

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

June 7, 2010

THE DIRECTOR

The Honorable Joseph Biden
President of the United States Senate
Washington, D.C. 20510

Dear Mr. President:

We are transmitting herewith the Annual Report on United States Contributions to the United Nations in accordance with Section 1225 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (P.L. 109-364), as amended by Section 1243 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84). This report sets forth United States contributions to the United Nations and United Nations affiliated agencies and related bodies for fiscal year 2009 as provided to the Office of Management and Budget (OMB) by the relevant Executive Branch agencies.

The Administration is committed to disclosing information rapidly in forms that the Congress and public can readily find and use. This report is being made available to the public on the OMB website together with other legislative information and reports to Congress.

Sincerely,

Peter R. Orszag
Director

Enclosure

Identical Letter Sent to the Speaker of the House of Representatives

Report to Congress on U.S. Contributions to the United Nations System

Prepared by the Office of Management and Budget

June 7, 2010

Section 1225 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (P.L. 109-364), as amended by Section 1243 of the National Defense Authorization Act for Fiscal Year 2010 (P.L. 111-84) requires the Director of the Office of Management and Budget (OMB) to submit to the Congress a report listing all assessed and voluntary contributions of the United States Government to the United Nations (UN) and UN affiliated agencies and related bodies. In previous years, OMB helped the State Department collect this data and the State Department issued the report.

The report reflects data collected from a government-wide data request issued by OMB. Each U.S. agency reported for all UN organizations under its purview. The report contains a listing of assistance provided during fiscal year 2009 by the U.S. Government—either directly or through another entity—to support the United Nations and its associated entities, including UN agencies, organizations, funds, or other bodies that fly the UN flag, use the UN logo, or are otherwise affiliated with the UN. The information provided includes both financial and in-kind support, including assessed contributions, voluntary contributions, grants, and other assistance provided to support UN programs and operations. For each U.S. Government department or agency, the report also provides specific information on each contribution: the responsible U.S. Government agency, the recipient UN entity, the amount obligated, a description of the contribution, whether the contribution was assessed or voluntary, and the purpose of the contribution.

Also based on the latest information provided by the State Department, it lists the approximate percentage of U.S. contributions to each UN entity compared with all the contributions to the entity in the relevant fiscal year. Some organizations were not able to report based on the U.S. fiscal year, as they operate on a calendar year basis; thus, in some cases this information is provided for the calendar year.

Global Health and Child Survival- USAID	World Health Organization (WHO)	Medical Assisted Therapy-(HIV/AIDS)- Ukraine	Provide strategic support to the design and implementation of an activity to implement integrated methadone-based treatment for HIV-infected injecting drug users; also , lead the development of service guidelines and standards to support service scale up and strengthen technical capacity of providers to deliver integrated treatment	Voluntary	158
	United Nations Population Fund (UNFPA)	UNFPA supports countries in using population data to develop policies and programs to reduce poverty; procures and supports reproductive health commodities and logistics; convenes leading national and international constituencies in Family Planning and Reproductive Health (FP/RH); provides technical assistance to improve quality of and access to FP/RH, maternal health, and HIV/AIDS services; and supports programs to strengthen gender equity.	The grant to UNFPA ensures more comprehensive and coordinated approaches to supporting family planning and reproductive health programming in the more than 150 nations where it works. By contributing to the organization, USAID expands access to high quality FP/RH information and services in countries not covered by USAID bilateral assistance.	Voluntary	20,000
	United Nations Children's Fund (UNICEF)	Eliminate Iodine Deficiency Disorder (Afghanistan)	UNICEF directly assists countries in implementing programmes to eliminate iodine deficiency, including the purchase of salt iodization equipment and potassium iodate, with ultimate goal of eliminating iodine deficiency disorder.	Voluntary	250
		Eliminate Iodine Deficiency Disorder (Cambodia)	UNICEF directly assists countries in implementing programmes to eliminate iodine deficiency, including the purchase of salt iodization equipment and potassium iodate, with ultimate goal of eliminating iodine deficiency disorder.	Voluntary	191

Global Health and Child Survival- USAID	United Nations Children's Fund (UNICEF)	Eliminate Iodine Deficiency Disorder (DR Congo)	UNICEF directly assists countries in implementing programmes to eliminate iodine deficiency, including the purchase of salt iodization equipment and potassium iodate, with ultimate goal of eliminating iodine deficiency disorder.	Voluntary	150
		Eliminate Iodine Deficiency Disorder (Haiti)	UNICEF directly assists countries in implementing programmes to eliminate iodine deficiency, including the purchase of salt iodization equipment and potassium iodate, with ultimate goal of eliminating iodine deficiency disorder.	Voluntary	306
		Eliminate Iodine Deficiency Disorder (India)	UNICEF directly assists countries in implementing programmes to eliminate iodine deficiency, including the purchase of salt iodization equipment and potassium iodate, with ultimate goal of eliminating iodine deficiency disorder.	Voluntary	300
		Eliminate Iodine Deficiency Disorder (Indonesia)	UNICEF directly assists countries in implementing programmes to eliminate iodine deficiency, including the purchase of salt iodization equipment and potassium iodate, with ultimate goal of eliminating iodine deficiency disorder.	Voluntary	200
		Eliminate Iodine Deficiency Disorder (Mozambique)	UNICEF directly assists countries in implementing programmes to eliminate iodine deficiency, including the purchase of salt iodization equipment and potassium iodate, with ultimate goal of eliminating iodine deficiency disorder.	Voluntary	250
		Eliminate Iodine Deficiency Disorder (Nepal)	UNICEF directly assists countries in implementing programmes to eliminate iodine deficiency, including the purchase of salt iodization equipment and potassium iodate, with ultimate goal of eliminating iodine deficiency disorder.	Voluntary	200

Global Health and Child Survival- USAID	United Nations Children's Fund (UNICEF)	Eliminate Iodine Deficiency Disorder (Tanzania)	UNICEF directly assists countries in implementing programmes to eliminate iodine deficiency, including the purchase of salt iodization equipment and potassium iodate, with ultimate goal of eliminating iodine deficiency disorder.	Voluntary	153
		A Two-Arm Single-Blind Randomized Comparison of Four Fixed-Dose Combinations Versus Standard Treatment with Separate Anti-TB Drugs for Treatment of Pulmonary Tuberculosis	Determine the efficacy of fixed-dose combination therapy compared with separate loose formulation anti-TB therapy in HIV-infected and non HIV-infected TB patients.	Voluntary	120
		A comprehensive approach to the surveillance and management of multidrug and extensively drug resistant tuberculosis (MDR-TB and XDR-TB) within the context of national TB control programmes	Assistance to countries to develop MDR and XDR-TB management.	Voluntary	2,000
		Accelerated Access and Availability of Affordable Vaccines	Support to vaccine manufacturers in developing countries through the developing country vaccine manufacturers network and regulatory testing support for vaccines from vaccine manufacturers in developing countries.	Voluntary	250
		Action on Pyrethroid Resistance - Critical Gaps	Action on Pyrethroid Resistance - Critical Gaps	Voluntary	60
		Adaptation of International Guidance on Management of Hepatitis B and C Coinfection	Adapting guidelines for HIV/hepatitis co-management for low and middle-income countries.	Voluntary	30
		Additional Technical Updates to Accompany ART Guidelines	Update antiretroviral therapy guidelines with new technical information throughout 2010.	Voluntary	100
		Avian Influenza	Activities for H1N1 swine flu	Voluntary	2,500
		Building Support for the National Regulatory Authorities in India	Support to the Indian National Regulatory Authority.	Voluntary	50
		Collaboration on Social, Behavioral, and Program Research	Strengthen work on social, behavioral, and program research in family planning and sexual and reproductive health.	Voluntary	330

Global Health and Child Survival/USAID	World Health Organization (WHO)	<p>Community Management of Neonatal Sepsis/Pneumonia</p> <p>Coordinating Procurement of Neglected Tropical Diseases (NTD) Medicines of Assured Quality</p> <p>Development of 2010 Global Maternal Mortality Estimates</p> <p>Development of a Gatifloxacin Containing Fixed Ratio Combination for the Four Month Daily Treatment of Tuberculosis</p> <p>Development, Adaptation, and Implementation of Guidelines for the Prevention of Mother to Child Transmission (PMTCT) of HIV</p> <p>Dissemination of the 2008 USAID Funded Products</p> <p>Early Infant Diagnosis</p> <p>Expanding the Scope of the Laboratory Network</p> <p>Expansion of Pneumonia Treatment at Community Level</p> <p>Facilitating Use of Innovative Methods and New Tools</p>	<p>Assess the safety and efficacy of a simplified antibiotic regimen for community management of neonatal sepsis and pneumonia in two countries in Asia and at least one country in Africa.</p> <p>Expand and sustain preventive interventions through improved access to large volumes of non-donated NTD medicines of assured quality.</p> <p>Enhance the database and methodologies for estimating maternal mortality worldwide and update global maternal mortality figures.</p> <p>Investigate the possibility of anti-TB therapies which include gatifloxacin, which may allow shorter treatment times.</p> <p>Update the existing but outdated WHO guidelines on prevention of mother to child transmission of HIV.</p> <p>Disseminate the evidence gathered through previous USAID-funded products in easily accessible and policy-relevant formats for different types of audiences.</p> <p>Disseminating new early infant diagnosis guidelines for HIV; harmonizing lab reporting, and integrating early infant diagnosis into the WHO regional lab network.</p> <p>Improve tuberculosis diagnostic capacity through the global laboratory initiative.</p> <p>Promote community case management of pneumonia.</p> <p>Facilitate uptake of diagnostic methods and treatment tools.</p>	Voluntary	400

Global Health and Child Survival/USAID	World Health Organization (WHO)	Increasing Access to Health Workers in Remote and Rural Areas Through Improved Retention	Increase access to health workers in remote and rural areas through evidence-based retention strategies.	Voluntary	550
		Indicators for Assessing Infant and Young Child Feeding Practices	Translate and publish a document on infant and young child feeding practices.	Voluntary	96
		Infection control	Advocate for, monitor, and evaluate TB infection control and develop improved methods for infection control.	Voluntary	238
		Integrated Management of Malaria, Pneumonia, and Diarrhea	Operations research and analysis of data on integrated management of childhood diseases.	Voluntary	300
		International health regulations implementation course	Strengthen critical human resources needed to set up and manage systems for achieving global public health security.	Voluntary	209
		Linkages Between Family Planning and HIV/STIs	Consider sustainable integration of family planning and HIV services.	Voluntary	125
		Malaria Vaccines	Scientific Forum for the 2009-2010 year which will provide a global overview of a priority issue for the development and implementation of malaria vaccines.	Voluntary	57
		Malaria in Pregnancy	Assess the safety of artemisinin combination therapy during pregnancy.	Voluntary	200
		Management of Severe Pneumonia in the Community	Disseminate WHO guidelines on severe pneumonia and determine community level effectiveness of oral amoxicillin for treating children with pneumonia.	Voluntary	100
		Maximizing Positive Synergies Between Health Systems and Global Health Initiatives Through Human Resources for Health	Implement innovative training and service delivery models that can maximize use of the human resources currently available as well as concomitantly produce and sustain new health workers.	Voluntary	550

Global Health and Child Survival/USAID	World Health Organization (WHO)	Microbicide Research and Development	Support workshops and research in Africa on scientific and regulatory issues with topical and oral microbicides containing antiretroviral agents.	Voluntary	700
		Monitoring Antimalarial Drug Efficacy	Technical Expert Group on antimalarial drug resistance to guide WHO's strategic direction and technical support to countries on drug resistance.	Voluntary	250
		Monitoring and Evaluating the Adoption and Implementation of ART Guidelines in Countries	Develop a generic implementation plan to assist countries by introducing key 2009 ART guideline revisions; monitor the progress of countries in updating ART guidance; and evaluate the progress made by countries to implement new guideline directives.	Voluntary	100
		Multi-Country Study on Maternal and Prenatal Health	Develop the multicountry study of near miss maternal deaths and preterm births.	Voluntary	430
		Multicenter Study for the Identification of Biomarkers for Pre-Eclampsia/Eclampsia to Develop Affordable Screening Interventions in Low-Resource Settings	Evaluate the predictive ability of angiogenic factors for pre-eclampsia through a multicenter and multicountry study.	Voluntary	100
		PMI Support for an Evaluation of the Longevity of Insecticides for Use in Indoor Residual Spray Programs (through a subgrant to UCAD)	Evaluate the duration of efficacy of insecticides for IRS on different wall surfaces.	Voluntary	200
		Pediatric Treatment and Care Program Evaluations	Participate in two to four program evaluations of pediatric HIV care.	Voluntary	200
		Pharmacovigilance	Develop internationally agreed reference standards for the clinical management of antiretroviral associated adverse events and toxicity for use by antiretroviral therapy programs.	Voluntary	30
		Potential for Use of ACTs Beyond the Health Facility	Investigate the use of artemisinin combination therapy in community settings.	Voluntary	100

Global Health and Child Survival/USAID	World Health Organization (WHO)		Programme Development in Reproductive Health	Strengthen reproductive health programs, especially in sub-Saharan Africa.	Voluntary	1,395
			Provides scientific and technical support to contraceptive technology development; FP/RH program research, implementation of best practices, and integration of FP/HIV programs, and microbicide development	Improved reproductive health through expanded access to quality programs	Voluntary	2,500
			Provides scientific and technical support to microbicide development.	Improved reproductive health through expanded access to quality programs	Voluntary	700
			Provision of Technical Assistance to Countries for the Re-invigoration of ORS/ORT	Promote the use of new reduced osmolarity ORS solution and revitalize ORT promotion, together with zinc supplementation.	Voluntary	25
			Public Health Laboratory Twinning Programs to Detect Infections and Prevent Epidemics	Enable reference laboratories from specialized institutions to assist resource-limited laboratories to strengthen diagnostic capability and scientific expertise.	Voluntary	170
			Public-Private Mix for TB Care and Control	Continue support to the WHO Stop TB department for work on public-private mix for TB care and control.	Voluntary	896
			Revisiting the International Low Birth-weight Definition	Provide the evidence base on the definition of low birth-weight and obtain consensus recommendations on the cut-off level for low birth-weight.	Voluntary	100
			SIDCER (Strategic Initiative for Developing Capacity in Ethical Review)	Survey and evaluate ethics committees to ensure they adhere to international guidelines and monitor ethics committees which have been recognized by the SIDCER program.	Voluntary	25
			Secondary Analysis of Data from WHO Global Survey on Maternal Mortality Outcomes	Determine the levels and causes of maternal deaths within the WHO Global Survey database and identify the effect of variations in clinical care on the levels of maternal mortality and distribution of its causes.	Voluntary	90

Global Health and Child Survival/USAID	World Health Organization (WHO)	700
Strengthening National and International Capacity for NTD Monitoring and Surveillance	Improve and expand a web-based reporting system for neglected tropical disease efforts and information.	Voluntary
Strengthening National and International Capacity for TB Monitoring and Surveillance and impact measurement	Maintain and improve TB monitoring systems; improve impact measurement; and develop national capacity to analyze TB epidemiology and surveillance data and planning and budgeting.	Voluntary
Strengthening Public Health Laboratory Capacities	Provide public health laboratories with an External Quality Assessment Program.	Voluntary
Strengthening biosafety and laboratory biosecurity	Discuss and encourage improved laboratory biosafety.	Voluntary
Strengthening of national capacities for the detection and response to public health emergencies of international concern in the scope of IHR (2005)	Strengthen national capacities for disease preparedness, surveillance, and response.	Voluntary
Support to Roll Back Malaria Partnership and Harmonization Working Group	Support for the Secretariat and the Harmonization Working Group.	Voluntary
Support to WHO HIV Treatment Working Group	Produce a white paper on consistency in approaches to HIV treatment and care.	Voluntary
Supporting Primary Health Care Financing Systems for Universal Coverage	Work with low income countries to move toward universal coverage.	Voluntary
TB contact investigation	Distribute and promote TB contact policies and best practices in low and middle-income countries.	Voluntary
Technical Assistance for Immunization Systems Strengthening in Priority Countries	Support the national immunization programs in the Democratic Republic of Congo, Pakistan, and India with technical advisers in immunization activities.	Voluntary
Tuberculosis Diagnostics	Improve methods of tuberculosis diagnostics.	Voluntary
